LATEST NEWS.

PRESS TELEGRAMS

The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues—

Lisbon, 11th

We can now go to Paris in 59 hours from here by rail, a less time than the sea trip via Havre. The service began yesterday; 21 hours for the 406 kilometers from here to Madrid; from Madrid to Bordeaux 867 kilometers, and from Bordeaux to Paris 585.

Montevideo, 11th

War Minister ordered arrest of officers who signed protest against Volpi's torture.

Spanish Minister not at all satisfied at the way the Caballero Sanchez affair is being investigated.

Trifling conflagration at railway station last night, loss not worth mentioning.

Interpellation probable in Chamber about Volpi arrangement.

Volpi and Patroni refuse to take the £1000 each; they say that justice, not money, is what they want.

Police arrested the Argentine Colonels Espina and Irigoyen, who were going to fight a duel; also their seconds.

Rosario, 11th

Steamer Ville de Buenos Aires takes flax cargo, 300 sacks of minerals and many bales of wool.

Fifty cases of sugar machinery gone up to Tucuman for Gallo Bros.

Governor Zavalla still sick.

Corrientes, 11th

President Roca landed here today at 11 a.m. Fully 2000 people assembled to receive him.

All will be arranged.

Corrientes, 12th

Everything arranged in a friendly way, Gallino declines to even think of resuming office.

Vice-Governor will name Ministers; mixed list of Deputies, and Gallino goes to Congress in Derqui's place.

President Roca will go to see Resistencia colony and then go on to Formosa.

Montevideo 12

Amezaga was gold-medalled last night, and a banquet to him is being organized.

Another row has sprung up about a Gallego who has been thrashed in the Cabildo by the Commander of the Serenos and was nearly strangled also by them.

Santa Fe 12

Governor Zavalla on his legs again. His illness arose from having slept in a freshly painted room.

EXHIBITIONS.

The River Plate is the theatre of so many exhibitions at present, that it needs the faith that moves mountains to believe in its future. The Exhibition in this city, which has proved so great a success, is neutralized in its moral effect by the exhibition going on in Corrientes; and miserable as is the task, we must needs record the fact that the inauguration of the session of Pedagogues, with all that pomp, circumstance and eloquence for which we are becoming so proverbial, was contemporaneous and true to the day and hour of the sacking of Monte Caseros. Whilst Minister Plaza was, in noble terms, summoning the learning and genius of the Republic to the 'certamen', Captain Insaurralde was summoning Comandante Casco to surrender his hamlet town, and his gaucho vagabond soldiers were looting the one or two stores in the unfortunate place.

President Roca is steaming up the river, as fast as the powerful engines of the Maipu can take him, to quell a revolution, whilst at the same time the Villa del Salto and Jupiter are carrying to our mole-head hundreds and thousands of visitors to see the Exhibition in the Plaza Once. Thus it is that, if one half of the world does not know how the other half lives, one half of the River Plate people know nothing of the crimes, passions and errors of the other half.

General Roca never acted better in his life or played a part truer to the high opinion which his friends and the country at large have formed of him than by 'taking the bull by the horns' and going up in person to quell this rebellion, as in other hands the affair might settle into a third Punic or Jordan War, from which Heaven preserve us. But, although we see much to admire in the great decision of character of the President, equally obvious are the seeds of discord, disturbance and revolution which exist and have taken root in the soil. To the philosophic mind and calm thinker the present state of affairs in this country must afford deep subject for reflection. Civilization and Barbarism go so hand in hand here that the issue is, which will triumph?

If morality is disdained.

If public honor is scorned.

If crime and fraud and chicanery are winked at.

Then the present affair in Corrientes is but the beginning of a still more disreputable finale. What has taken place in Corrientos will break out afresh in some other part of the body politic, some other portions of the Republic; the disease is there, and to route it out will need more than the sticking plaster of artificial intervention or the sugar-canted pill of our Continental Exhibition. Our growth seems too rapid for our constitution. We said it, and now repeat it, that whether as a mere show, a painted edifice, or a combined effort of our tradesmen and artizans, the Exhibition is at least 20 years ahead of the country. Who doubts it? Look at the Volpi and Patroni affair that has brought such humiliation to a sister country! Look at the Paso Hondo tragedy in the same land! Look at the Sanchez Caballero barbarity, which the pen refuses to write—the hellish atrocities of the Hyenas in human shape that perpetrated them! Look at the duel in Montevideo in Holy Week between two printers where the combatants fought with knives and were only separated when one cut half the throat of the other, in the presence of two human beings yclept seconds! Look at what, in broad day light, has occurred at Moron, where the assassin threw up his arms and offered to surrender merely to stab to the heart the unfortunate policeman who, confiding in his statement, dropped his sword, and then a band of fellows, when the assassin was shot through the body, took up the corpse and paraded even the very suburbs of this city, for Moron is but a suburb, to teach the authorities that the 'gaucho' element yet lives!! These are exhibitions, sad and melancholy though they be, that call for comment from the press. We deplore to say and to print it, but we dare to say it: Every time we look at the Exhibition we involuntarily shudder at the sarcasm it teaches,

THE PEDAGOGUES.

We take an intense interest in the Pedagogic Conference now going on in the Exhibition, as, if it even partially fulfill its object, the country may count on at least the initiation of the reform so sorely needed in the vicious system of Public Education now in vogue. Our space is so confined that we cannot devote as much of it as we should like to this vital subject, but we confess to hoping for a modicum of good from this Conference, although there are far too many delegates, and if they all insist on speaking, which is to be feared, the 'palaver' will only end with the century. However, Mr Torres opened the ball on Tuesday in a most promising manner, with a paper bristling with most interesting data and ideas.

Mr Torres began by saying that the main object in the public schools should be less the number of children than to teach them properly. He quoted Lord Brougham, Story and Horace Mann on education, and agreed with the latter that it should be obligatory for children of from 5 to 14 years, and fully ten months of the year be devoted to study.

The monthly cost of each child in the public schools of the Republic is $f. 1.70 or $f. 20 40 yearly. Taking the population of the republic at 2½ millions, there ought to be ½ a million children at school, and, at the rate given, the yearly cost would be $f. 10,200,000. The number of teachers required for ½ a million would 12 500, whose pay would be, at 800 pats each, 10 millions pats. Mr Torres referred strongly to the striking injustice and impolicy of leaving the public teachers unpaid, and cutting down their salaries whenever the Treasury was hard up. (This remark roused the assembled Pedagogues to a solid, unanimous, roaring cheer worthy of a man of war's crew, and the roof of the concert hall nearly burst with the sudden volume of sound.)

The talented speaker said that money spent in education was the best spent of all money, and the most productive. A criminal in the Penitentiary costs $f. 15-10 monthly; a child at school only $f 1-70. In 8 years, the average duration of a child's education, he costs only $f. 163, whereas the criminal costs 1449 in the same time. Eight children can be fully educated for what it costs to keep one convict!

There are at present in the Republic half a million children fit for instruction. In another 25 years their number will probably be a million, the average annual increase in the number of children requiring instructions being about twenty thousand. The painful part of Mr Torres's most interesting address was his stunning announcement that there are 350,000 children growing up in the republic in total ignorance! and it will require a yearly increase of 35,000 children attending school to save us from having in the year 1907 a round MILLION OF CHILDREN IN TOTAL IGNORANCE!

This truly appalling glance into the future had a visible effect on the learned audience, and that kind of half-sigh, half-gasp for breath which newspapers dub 'sensation' was heard in the hall while the gifted speaker wound up with an eloquent peroration, appealing to the authorities and society itself not to shrink from their responsibilities in face of the gloomy prospect he had disclosed, but to face it manfully and do their duty to the young by diffusing education to all and for all. The applause was deafening as Mr Torres resumed his seat.

IMPORTANT FROM MENDOZA.

GREAT LAND SALES.

(*Our own Correspondent*)

April 3, 1882.

In continuation of my last correspondence, dated 23d of March, you will now receive a few additional particulars as to what has been going on in the province of Mendoza with reference to the market for sale of lands; however, they do not amount to much, for no such thing as a spirit of speculation, or even of enterprise of any kind, seems to be known amongst our moneyed men. Some information I shall also probably be able to place at your service, within a few days, as to what is being done in this respect in the adjoining provinces of San Juan and San Luis, though it is well and even generally known that for such open lands as are offering for sale in the latter, much too high a price is asked by the present owners to allow of anything like speculation in the game to take place.

Here there has been now for some time past a certain stir in and enquiry for lands in the south of the province and in territories until quite recently occupied by the Indians; in fact, the estancia lands beyond the river Diamante, and thence as far south as the sources of the Rio Negro. But little is, however, known of what has really been effected in this respect: it has only leaked out that

the late Government 'proveedores,' Messrs. Belanstegui and Co., and the present one, Sr. Olmos, have both been purchasing in that neighbourhood to some extent, at the rate of $500 the square league, principally lands ceded by the Government to the officers who took part of late years in the expeditions sent against the Indians. The only item of any importance to those interested in the land market, which has cropped up during the last month or two, has been an offer which was made to Messrs. Dn. Bambel and Angel Olvedor for a tract of land they jointly own in the neighbourhood of San Carlos, 20 odd leagues to the south-west of Mendoza. This piece of land extends as far as the Chilian frontier, having one league frontage on the boundary and being thirteen leagues in depth, consequently containing an area of thirteen square leagues, for which $12,000 Bol. was offered and refused, one of the partners holding out for $15,000. Now, as a great portion of this land—say about eight leagues of it—is composed of pure 'serrania,' covered with brush, the price offered would seem to be a very good one. However, the refusal of the offer seems to indicate also that the owners of land here are raising their pretensions, based on the suppositious hopes that with the arrival of the railroad and consequent introduction of European immigration, their landed properties will undergo a considerable rise in value, and this is about the extent of their ideas of speculation.

There is only one inhabitant of the province who, in conjunction with his native connexions, is known to have really speculated on the future prosperity and advance of this outlying country: I refer to the British subject, Dr. Day, at present absent with his family on a trip to Australia, Europe, &c. This gentleman has acquired the ownership of immense tracts of land, which he has been constantly purchasing for the last twenty years and more, paying for the same with provincial bonds, accumulated gradually, and in most instances at a discount of from 80 to 95 per cent. Some idea may be formed of the extent of his possessions from the fact that a current report is now in circulation here of his having had an offer of £500,000 sterling, or say 2½ millions of hard dollars, made to him by some English capitalists for all his estancia lands lying south of this city, and extending as far as the Rio Negro. This is merely a report, and no further particulars are known regarding the affair, but the general public is of opinion that the journey he has now undertaken is to some extent connected with the sale of his landed properties in this province.

Chacra lands in the immediate vicinity of this city and in the adjoining departments of San Vicente, Guaimallen, Lujan, Maipu, &c., are constantly being offered for sale in the market, and when sold at auction to cover amount under mortgage, as is most usually the case, can frequently be obtained a great bargain, though the really valuable lots, which are offered at private sale, rarely find purchasers just now on account of the high prices demanded.

These chacra lands are usually composed of from three to five squares under vineyard and orchard trees, mostly in a neglected condition, and two or three 'potreros' of two or three squares each, under alfalfa, with perhaps an additional square or two devoted to grain, vegetables and other agricultural produce. Under the system of careless cultivation at present in use, the owners of these lands expect to realise, and do actually realise, off a square of land under alfalfa quite as much as they obtain from a vineyard and orchard of the same dimensions. From this fact your readers can form some opinion as to the amount of neglect and indifference shown in the cultivation of the latter.

It is not very long since that a piece of land which had been for a period of about three years properly worked in parts by two brothers of the name of Parodi, and situated but a short distance from our central plaza, was bought in at auction, on their failure, by the principal creditor, for about $4,000 Bol. The purchaser obtained by this means 110 squares of chacra land, by paying approximately the value of about 20 squares, which are under cultivation and 'cercados' These are the sort of opportunities which now and then offer, when outsiders have a chance of becoming owners of property, which, with some outlay, is safe to become later on of immense value.

EDITOR'S TABLE.

The first news of any moment yesterday was the settlement of the Corrientes fizzle. Governor Gallino refused to return to power, but expressed his readiness to go to Congress as Senator in place of the gentleman who kicked him out. Everybody said so be it to this, and the whole arrangement was celebrated with the chorus of 'We are jolly good fellows!' That may be, but the arrangement has too much of the loaves and fishes element in it to inspire any confidence that bloodless revolutions may not suddenly spring into fashion in half the provinces of the republic.

The Coliseum looked like fairy land last night about 10 p.m., when all was ready for the ball. The Bachelors were all there to receive their guests, who did not begin to arrive till that fashionable hour midnight. Details in our next.

The experiments made with the Pantelephone on the Southern Railway during Holy Week were splendidly successful. The instrument was tried between here and Las Flores and several intermediate stations, with perfect results. A Frenchman in Las Flores sang the Marseillaise, and it was heard clearly at the terminus here. It being the Gauls turn to call for a song, he, to the intense astonishment of all, demanded 'Green grow the rushes oh!, but not a soul in the station could even whistle it. The Pantelephone Company are to be congratulated on the very satisfactory result of the experiments.

The Exhibition Committee have imposed 5 per cent on all sales of articles made in the building. A mistake, gentlemen, with great respect for you!

We had a dense crowd of visitors yesterday to see our map of the Southern Railway route. One leading merchant was kicking at our door before daylight, so impatient was he to see it. We protest in the very strongest terms against a groundless and unkind insinuation, set current by a millionaire estanciero, to the effect that the map is a *Standard* 'sell'. If this is our reward for losing a whole night's rest over the map, it shall most certainly be our last contribution to the railway topography of the country.

Five new sections of the Exhibition were opened last night—the French, German, Swiss, Belgian and Machinery. Particulars to-morrow morning.

The advertizement in our issue of yesterday in reference to the re-opening of the Scotch school on Monday morning next was hailed with unbounded satisfaction by the British community, who can now count on a genuine home education, by trained teachers, for their children, without the trouble, risk and expense of sending them across the Atlantic. The terms are surprisingly low for the numerous advantages offered, and we have no doubt that Mr. Hutton, the new Head Master, will speedily have his hands full.

To-day the funeral obsequies for Miss Lilia Andrade take place at the San Nicolas Church, a lovely girl cut off in the very morning of life. She it was who a few months ago, in all the fullness of joy and life, crowned her father before the assembled thousands at the Juegos Florales for his surpassing poem 'Atlanteide'.

On Tuesday morning at 11 o'clock, President Roca landed at Corrientes. There was an immense gathering on the beach to welcome him, fully 2,000 people, and before he was ½ an hour on shore the news ran like wildfire through Corrientes that the whole question was arranged, General Roca can exclaim with Cæsar, veni, vidi, vici. The longest part of the business seems to have been the voyage up the river, nearly a week; we did Monte Caseros, the Misiones, Fall, Salto &c. in less time.

There was immense excitement in Calle Florida yesterday morning caused by the masons who are laying the foundation of Dr Leloir's new house, corner Piedad, discovering an old Indian oven, which proves beyond all doubt that in bye gone days the Indians lived in Calle Florida.

On Tuesday night Boito's famed Opera 'Mephistopheles' was performed at the Colon Theatre for the first time this season, and not only is the music very beautiful but the 'mise en scene' is most gorgeous. Several 'morceaux' were enthusiastically encored and they were indeed very artistically executed. The house was as crowded as if it were the 'Fiestas Mayas'; not a vacant seat in it. The sight alone of the 'Cazuela' was well worth the entrance money. I must confess I did not like Castelmary's interpretation of Mephistopheles; far too much of the buffoon about it. If this favorite Opera were given six consecutive times, the house would invariably fill, because, independent of its being a grand spectacular opera and the music being both original and attractive, there are some ballet scenes that are quite imposing. Many people prefer this opera to Faust. The next performance of this grand opera will necessarily call for further comments.

Old Stager

The Volpi muddle is really getting too much for average Christians. What we liked best about it in yesterday's papers was the clean 'toss' given by Dr Plaza, Minister of Foreign Affairs, to the Opposition Press, which wished to fasten on the Argentine Foreign Office the responsibility for the Italian Minister having insisted on President Santos and his Ministers paying him an official visit at the Legation, as part of the reparation due to the Italian flag. It is quite clear, from Dr Plaza's declarations, that neither the Argentine Minister in Montevideo nor his chief here had anything whatever to do with the business. It is said that Volpi and Patroni have refused the money offered them as indemnity. More fools they. On £1,000 each they could make a splendid start on the Rio Negro and soon be rich men.

Messrs Baltar and Quesada are gallant men and shrewd auctioneers. They have provided special seats and accommodation for ladies attending their bric-a-brac sales now going on. The fair bidders will be so seated that a smile, a raised eyebrow, a sigh, or a wink—No! we retract this last word—a sigh, or a cough can be interpreted as an advance on the offers of competing beauties, and dead bargains can be secured from a comfortable arm chair. Last night there was a crowd of ladies in the mart, and high prices were obtained.

A splendid merry-go-round, just brought from Europe, is now 'a la disposicion' of juveniles in the Florida Gardens. It is the same as those in the Place de Carousse Paris, and Victoria Park London.

A reinforcement of artists for the Colon opera company is expected at the end of this month. Like all artists who come out here, they are 'de renombre.'

Mr. Lucas Gonzalez is expected back from Europe very shortly.

Seventeen men of the Rio Fire Brigade have arrived. They attract much attention in the Exhibition.

Rumours are afloat that Sr. Uriburu, the talented Finance Minister of the province, will resign very shortly, as he is going on a tour in Europe with his family.

Our popular colleague, Walls of the *Courrier*, was as comfortable as possible in prison, and had so many visitors that he has hardly time to write his leaders for the paper.

Our Supplement to-day is rather varied, its contents ranging from Brazilian slaves to Parisian dinner-giving, and off again to the French Shipping Bounties. We deeply regret to note that the Parisians have commenced to water their champagne at dinner.

Patacons	25.—
Cedulas A	101
Do E	85½
National Bank Shares..	115½
Deuda Amortizable	21

The Bolsa this morning ruled lively, owing to the spring in National Bank Shares; both ring and hall were crowded. As a rule all who surround the rail at 1 o'clock are head and ears into shares, and it looks as if the busy days of last year are again returning in the stock.

Cedulas rose to-day, Series A to 1 premium, at which figure they halted; it is said that a speculation for a rise has sprung up in this stock, and that a well known outsider is buying. Series E rules very quiet, and next week we hear all will be arranged between the Government of Sta. Fe and the Mortgage Bank for the opening of a branch in Rosario, which of course will bring fresh stock on this market.

In gold nothing whatever done; sellers offering for the end of June and July, but no buyers; no speculation whatever in the article.

In Deuda Amortizable there was a slight push, 20,000 sold cash, starting at 21¼ and hailing at 21. For April 30th 30,000, opening at 21⅛ and closing at 21.

Gas Shares buyers at 1,500, sellers at 1,700. Roads and Bridges sellers at ½ premium, buyers at par.

National Bank Shares were not sold cash, but for end of month there was a fair business done, prices opening at 115¼, jumping up to 116, and closing at 115⅞. There is much obscurity about the market; some believe that the shares are good for 125 this month, whilst others the moment they make one per cent close up, as they dread the power of the Syndicate. The money lost and made in this stock within the last year may be gauged by the fact that they say Al Nocedi, who left for Europe, retires on a fortune of one hundred thousand pounds sterling.

Exchange brokers report the rates at 49⅜ ½, bills freely offering and few takers. The rise in the Rio rates will doubtless affect this market.

The latest news from Patagones is all important. Dr Martin Gras the Secretary of Governor Barros has resigned, thus the town of Biedma and the vast district of Patagones is now without even the semblance of Government, as H.E. the Governor is here and the Secretary Mr Gras who carried on the Government down there in the absence of the Governor has resigned. We regret to say that the people of Biedma were very discontented with the Government, and a Mr Crespo was sent up here on a special mission some months ago to ask President Roca to use his influence to change the Government. Nothing came of that petition, and the people down there were of course much annoyed; we read in Mr Gras's resignation he spreading discontent of the people. Mr Gras was an active, intelligent Secretary, but as the Governor for the most of the time lived up here, Biedma might become a place of much greater importance if its interests and those of the people were better looked after. The place is now over very lonely and for a man like Colonel Alvaro Barros, il is simple exile; we cannot blame him for preferring to reside here.

No steamer from Montevideo to day, although hundreds of passengers waiting to come up. The passenger trade in the rivers is now so great that had we more steamers they would be well supported.

The purchase of 5,000 head of cattle 'al corte' by Don Gregorio Soler in the far South is reported at 220 m/c, which is a higher figure than previous sales.

The Custom House receipts are keeping up splendidly, which we attribute to the Exhibition. All the shopkeepers are doing a roaring business, and the Calle Victoria and Florida people will soon be able to retire; at the Ciudad de Londres and also at the Progreso there are not chairs enough to seat the customers. We lunched a fan shop yesterday and saw a greater stock of fans of the most costly kind than even in the Rua d'Ouvidor in Rio.

The sales at the ring were as follows:—

Gold—
No operations.
Cedulas—
For cash A 13,200 at 100⅞-101
For April 30th E 5,000 at 85½
Sales, 18,200.
Nat. Bank Shares—
For April 30th 4,700 shares at 115½-⅞-116 to 115⅝

Deuda Amortizable—
For cash 20,000 21⅛-21
For April 30th 30,000 at 21⅛-21
Sales, 50,000.

At afterhours the Bank Shares at first ruled very firm and some 3,000 were sold at 116, prices then gave way and dropped to 115⅞, at which rate market closed sellers One or two brokers held large orders to sell, but their limits were too high and nothing could be done.

It was whispered on 'Change at 5 o'clock that there was news from the Bank and that the Directors are going to be summoned to increase the capital; the message to be sent to Congress will be drawn up. Dr Pacheco, President of the Bank, insists on the measure, owing to the rapidly growing business of the Bank. Of course, if such a measure be carried out, it will shake the market, but the bill has to pass Congress and may be thrown out.

In other stocks nothing done: the whole room is engulphed in Nat. Bank Shares, and the brokers talk of nothing else.

The sale of 1,000 pipes of tallow at Guaviyu at 17½ is reported.

Telegrams from London last week give Hard Dollars at 89.

There are no telegrams from Europe, owing to the break in the cable above Pernambuco; one of the ends slipped from on board the cable ship into the sea, and it will take time to pick it up.

The Villarino it seems has not been able to cross the Rio Negro bar, it is so very rough; she has now been kept out 4 days by the state of the bar; if the storm down there continues she may have to enter San Blas.

Parties anxious to purchase a nice cheap estancia close to the Railway Station Bahia Blanca had better attend Mr Gowland's auction on 20th instant.

Mr Forrester had a long interview to-day with the Directors of Rural Society about the trials of agricultural machinery; there will be two trials a year beginning in June and December 1883.

The amortization of National Bonds was the business of the day. The following were the bids:—

C Veldt	10,100 at	93.94
Krutish	6,000	89.45
Do	5,000	89.95
Hart	31,700	89.50
Do	3,600	90
Ramsay	12,000	87.45
Do	21,000	88.90
Barton & Watson	26,000	92.64
Do	26,000	92.95
Portes	54,000	Par
Abadie	6,000	88.98
Lenguas	5,000	90
Jackson	6,800	89
Hurt	53,800	88.82
Gomez	3,100	88.75

1876 Bonds.

Gomez	700 at	88.50
Hart	1,800	89.50

Both bids for 1876 Bonds accepted and for 1863 Bonds the following:—

Ramsay	12,000 at	87.45
Hurt	53,300	88.32
Gomez	3,100	88.75
Ramsay	1,400	88.90

It will be seen that the 1876 Bonds fetched a higher amortization than the 1863, and the Hard Dollars were amortized even cheaper than the last London quotation. We heard nothing of amortization of Treasury Bonds, no bids, no drawings we suppose, and nothing done.

At the Plaza Once about 6000 arr. lambs wool sold at from 65 to 80.

All the German barraqueros in town go to the Exhibition to-night, as the German Section opens; there will be 'Hoch sollen Sie Leben,' Mr Duggan and others also attend, but the English bachelors' ball interferes somewhat with it.

Mr Myles Passmann was enveloped in friends when he entered the Hall on his return from Uruguay, he had a splendid time of it and was not like some of his companions arrested. Mr Backmann was also welcomed.

The Villa del Salto entered late this morning with a crowd of passengers: all the saladeros up there are killing away fast.

Messrs Wiengreen & Co. of San Nicolas have opened a house of business in this market, Defensa 86.

The ss. Lassell will arrive on Saturday from Rosario and leave on 17th for Antwerp and Liverpool with large cargo.

The Kepler is in port and will leave on 21. for Antwerp and London; she takes the following cargo:

The mails from Paraguay bring news; a small treasure of 18,000 pats found by a Paraguayan boy buried close to the Inboy bridge. The President's message breathes hope and faith in the future: trade in Asuncion much better; country quiet, but emigration sadly wanted; fine estancia properties to be had for a mere song, no buyers. The new bank, the dream of the people, most of the shares taken up by merchants, and even bankers in Buenos Aires; concession a most favorable one, and if the concern starts with anything like a decent capital, it will meet a want and make a fortune. Sugar planting increasing, and the old Government Railway doing a tolerable business.

We hear from Rosario that a large quantity of wheat and flour is waiting up there to be shipped to this market.

The arrest on the Mole head of a merchant leaving for Europe last Monday is reported.

Due to the gale, the Villarino did not get out of Bahia Blanca before Sunday: she should have entered Patagones on Monday, but we have no telegram, which makes us think that it is the old story, can't cross the bar. The Argentine gunboat Constitucion, Captain Ituvadavia, will leave in a few days for San Blas to buoy the harbor and report on its adaptability for an Argentine naval station. It is not at all improbable that as soon as the Government makes that harbor a naval station the steamers for Patagones in bad weather, failing to cross the Rio Negro bar, will at once enter and discharge at San Blas, which is beyond question the finest harbor the Argentine Republic has.

Don Gregorio Torres, the new provedor for the army on the Rio Negro, has asked the Government to exempt his troops of cattle for the troops from the matadero charges imposed by the Villa Roca Municipality. The Government has referred the matter to Colonel Winter. Villa Roca is about 100 leagues higher up on the Rio Negro than Lamberé, or Kinchil's, the road is long and weary, and sufficiently dangerous, as last year the Indians surprised Mr Lopez's troop of carts out there and carried off 100 pair of bullocks. Mr Torres therefore does not ask for any immoderate concession, as the expense in driving cattle to Villa Roca are stupendous, and we hope to see the Government at once grant his petition.

The opening of the new market at Rio IV reminds us to ask our friends up there what has become of the powder factory upon which so much money was spent?

The scandalous fact that immigrants are returning to Europe thoroughly disgusted with the delays, &c, about giving them land to work on has again been brought under the notice of the Minister of the Interior, who, we are happy to say, is taking steps to remedy so great a scandal, so shocking an abuse. We have just received a letter from the Welsh colony, which we hope our friend Mr Schoolbred will translate and hand to Dr Irigoyen. It is of the two Welsh Commissioners who saw President Roca about bringing out this year 10,000 Welshmen. We wish to place the matter in Mr Schoolbred's hands, as the affair is a most serious one, and has to be attended to.

The Kepler has brought out to Mr Gosting a magnificent English bull, 2 fine English cows, and 35 Lincoln rams: they will be sold at Baltar & Quesada's on the 18th, a good chance for farmers visiting the Exhibition to secure prize animals for their estancias.

The S.S. San Martin had a very hard passage coming out and had to put in for repairs; she brings a very large cargo, upon which we understand there will probably be average to pay.

The sales of estancias in the Province of Mendoza, reported in our Correspondent's letter, have attracted much notice and we are asked for further particulars; one estancia has an area of 30 square leagues and sold at the rate of 400 Bol. or say 8,000 m|c per league, which although very far off, is considered cheap; we hope our correspondent will favor us with more details about these properties and more news of that stamp.

The West Coast Mails in bring the full confirmation of the rumoured peace between Chile and Bolivia. Chile has liberated all Bolivian war prisoners, and Bolivia has established a legation in Chile and sent as Minister to Santiago General Camacho; affairs therefore look so far settled out there.

The Montevidean passengers by the Navarre have been landed on Flores Island, owing to one or two cases of small pox on board, they will be out of quarantine to-morrow, but they complain bitterly, and the Zarzuela Company for the Montevidean Theatre was on board.

At the Brazilian Exhibition banquet given in this city, when dinner was over, a league was formed between Brazilian and Argentine Artizans to protect international industries, and a paper to that effect then and there signed: this looks mighty like Protection. The Emperor of Brazil has just published the first volume of impressions of his European travels; it will be an interesting book.

The Magellan from R. Plate arrived at Lisbon on 25th March. On 28th the Pagus left same port for here, and the Petropolis, Hamburg line, left on 26th for Rio.

The Captain of the Span. brig Loceto with lumber for Montevideo had to abandon his ship in the open sea, owing to damage she received in storm; he arrived with crew at Rio Grande.

The Sirius with 25 new buoys has left Montevideo to place them in the Uruguay; good news.

The saladero killing at Montevideo up to last Saturday was as follows;—

On next Saturday the half yearly meeting of shareholders of the Commercial Bank, Montevideo, will be held, when it is probable they will decide upon the proposal to open a branch bank in this market. The bank is overflowing with money.

Freights—

We have to report a dull fortnight for both steam and sailing vessels, and for the former the rates quoted are very weak, and little cargo offering. There is a scarcity of sailing tonnage disengaged, but shippers are not pressed sufficiently to cause rates to advance. For two small cargoes of tallow to load at B. Aires and the rivers 36s and 37s 6d and 5 o/o would be paid.

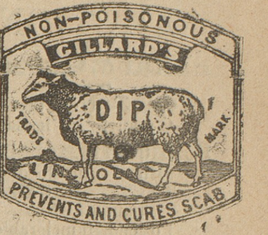
GILLARD'S
SHEEP DIP



This Dip is most carefully prepared by the latest improved methods and can be used with
COLD WATER
Supplied to the Prince of Wales's Farm at
SANDRINGHAM
TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock."
From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

PARIS LETTER.

(From our own Correspondent)

The Bonapartists apparentiy have relinquished politics for marrying and giving in marriage; Mlle. Baroche has been wedded with M. Billaut, both members of the families of the former imperial ministers. The bride is niece of Eugene Baroche, who fell so gloriously at Bourget during the Prussian invasion, and whose heroism was such, that Victor Hugo caused the name of Baroche to be expunged from his 'Chatiments.' The course of true love has run smooth for the two children of Prince Pierre Bonaparte, whose life will be best remembered, not in connection with the shooting of Victor Noir, as in having married a sewing girl, three times over to make 'sicket,' despite the frowns and growls of his cousin Napoleon III. With the greatest difficulty the mother reared her two children, for she separated from her husband; often they wanted a meal, and lived in the uppermost story of very high houses; the son, Prince Roland, became a sub-lieutenant in the line, then a millionaire by recently marrying the wealthy Mlle. Blanc; his sister, Princesse Jeannette, supported herself by giving music lessons, and contributing sketches, for she draws well, to the illustrated journals. She has captivated the Comte de Villeneuve, a poet and a savant, and so becomes one of the richest ladies in France, and a queen of song in Provence, where Petrarch and Laura chanted their loves.

Some hints about fashionable dinners, that many assert are as difficult to conduct as a battle. For those where the guests ought to be more numerous than the Graces and less than the Muses, they it seems should be composed with the intelligence of a dowager of the reign of Louis XV., with the care of a Flemish housewife, the talent of a 'cordon bleu', and the imagination and grace of an artist. Nothing ought to be left to chance; the smallest details ought to be studied, as did Napoleon before commencing a battle. Not less care should be devoted to the dishes than to the bill of fare—the latter being as fanciful as inclination desires, where two leaves of silver or ivory, enable a lady to read the list of good things, as well as her own features, or a fan, or satin sachets; nothing can be in better taste than glazed Bristol board neatly printed. The dinner should aim above all things to have nothing approaching to the hotel character; the Russian style of serving dinners prevails most in Paris. The French themselves admit their cookery is on the decline; this is attributed to ladies no longer looking after household matters, and their increasing love for saving, to indulge in toilettes. How distant from the time of Madame Scarron, who when a roast was not forthcoming owing to her want of means, was so informed by the butler, who begged her at the same time to replace it by a good story. A wit states that cooking now-a-days takes place in chests of drawers, so numerous are the boxes and economical kitchen-ranges. The Duc d'Aumale, the English and Russian embassies, have the reputation of serving best, and the best dinners in this city of light. Two innovations to note; 'hors d'oeuvres,' generally served after the soup, are no longer in vogue, and champagne, diluted with iced water, is drunk from the commencement of the repast; claret throughout the whole dinner, and Spanish wines during dessert.

Next to a dinner party is the difficulty of filling your box at the Opera with guests; one of the greatest ambitions for a lady is to appear, arrayed like Solomon, in all her glory in a 'loge;' it is a lilliputian salon, where she reigns a sovereign. How can the owner of a box place the invited; it is a task more difficult than to organise a ministry; you must have ladies of the same set, and mutually sympathetic if possible; there must not be too many nor too few; the latter is most to be dreaded, for often owing to colds, sudden deaths in families, voyages etc, it is necessary to issue thirty invitations to insure four acceptances. It is a diplomatic work of no mean importance.

Saving revivals our theatres have brought out nothing special, nor will they, till after the Carnival of Nice, when the swallow population will migrate Paris-wards.

The tenant—right question in Egypt ought to make the mouths of Irish landlords water. A writer states, that the temple of Lon geor cannot be freed, till the Arabs who occupy the neighborhood be bought out; it costs only 1 1/2 fr. to build a house, and as the natives have the desert for building site, they would be charmed to be paid that compensation to move on.

The French courts have ruled, that no juror can be a 'foreman,' who disbelieves in God; but he can still be one of the twelve.

An apothecary has been arrested for selling spurious simples; his neighbors say he even adulterated tne poisons.

When a tenor practising his voice, screeches too loud, he is said to be undergoing a bleeding.

THE FRENCH SHIPPING BOUNTIES.

The new French shipping bounties are operating in a way that is not likely to prove very satisfactory to Frenchmen. Instead of proving a means of drawing out French enterprise, they seem destined to operate very largely as a premium for foreigners. Mr Roach, having failed to get bounties at home, is now turning his attention to what may be procurable under the French system. He is understood to be negotiating with parties in France for undertaking the construction of a line of steamers destined for the South American trade. The vessels are to be built in France and are to have a French register and to be run by a company organized under French laws; but it is to be presumed that Mr Roach will be virtually the builder and that he will hold an important pro prietary interest in one shape or another. In a similar way, English shipbuilders are making arrangements to build vessels in France, which while under French register and receiving the full bounty of French built ships, will yet be largely owned by English capitalists. As the shipbuilding facilities of France are very limited, it is probable that any increase in her tonnage under the bounty act will come largely from this outside source.

The effect of this act will therefore be to impart an artificial stimulus to the increase of the world's mercantile marine for the profit of foreigners and at the expense of the French Government. If this process is carried to any great length, there will be an over supply of tonnage, the rates of freight will decline to an extent that will neutralize the bounty compensation, and French shipping will then be in no better position for making profits than it has been without bounties. French taxpayers may therefore discover that they have been paying large subsidies to foreigners without building up a commercial navy that is properly French or that can obtain a solid basis of profit and endurance.

This, however, is more than a mere question of construction. It will be contrary to all past experience if the French prove able to manage and run these new steam ship lines efficiently. They are not a maritime people. Shipping is not congenial to their genius and habits; and if they ever gain a position on the ocean, it will be through the employment of foreign management and agencies, which will virtually control the business and will be ready to transfer it the moment the bounties cease or fail to prove remunerative. If these forecastings are reasonable, how long are Frenchmen likely to be satisfied with bounty taxes? *N. Y. Bulletin*

SLAVERY IN BRAZIL.

The returns of the slave population of the province of Rio Janeyro have been made up to the 30th of June, 1881. On the 30th of September, 1873, when the special registration closed, there were 301,169 slaves in the province, which number was increased by 32,423 afterwards brought into the province, increasing the total registrations to 333,592. This number, however, had become reduced to 276,195 on the 30th of June, 1881, by 46,374 deaths and 11,023 emancipations, the decrease in seven three-quarter years being 57,397, or nearly 21 per cent. Of the 276,195, 117,251 were from 10 to 20 years of age, 149,077 of 20 to 60, and 9,845 over 70; 203,037 were engaged on farm work. The *Anglo-Brazilian Times*, commenting upon these returns, says:—'If, however, we wish to arrive at the full emancipatory effects of the law of September, 1871, excluding from such effects the 9,403 private emancipations and the 46,374 deaths, we would have to add to 1,620 official emancipations the 64,027 free children, owing their freedom to that law, who were existing on the 30th of June, 1881, the date of the return. In fact, the law of 1871 was not an abolitionary Act, its leading motive was only to provide for the gradual extinction of slavery by cutting off its feeders. As regards the probabilities of more active measures on behalf of the 1,300,000 existing slaves in the whole empire, whose sole present chances of liberty lie in the scanty operations of the Emancipation Fund, and the considerably wider but still very limited effects of private benevolence, the known sentiments of the Premier and of, perhaps, a majority of the Chambers, give little countenance to the belief in a Government measure; but it is current that the promotion of such a measure will be advocated at an early date by Senator Silveira Martins, who can command at least five Liberal votes in the Chamber of Deputies.'

AS SURE AS EGGS ARE EGGS.—An American Editor declares that 'out West' eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blanc-manges, &c, at half the usual cost, and in much less time. The hens had better be 'cautious about 'striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Civilian.*

HOWARD'S CELEBRATED PLOUGHS

The above represents the well known 'Eagle 75' Plough which, and other sizes, are manufactured by J. & F. HOWARD in the highest style of workmanship, and tens of thousands are in use. Several manifest improvements have been introduced. As shown in the engraving, the body clips the beam, and the 'centre draught' is also taken from the strongest part of the iron body,—thus giving an additional security against the beam breaking at the bolt holes—a very common occurrence with American made Ploughs.

The beam is made of Oak, and can if required be fitted with a steel plate on each side.

The shares are hardened upon J. & F. HOWARD'S well known patented *water-chill* process, which renders them not only tough and hard, but ensures their wearing better and longer than made when by any other process.

Prices of the various sizes, Nos. 19, 19½, 25, 26, 55, 75, &c., sent on application.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Purchasers are cautioned to avoid counterfeits by observing that each article is labelled with the firm's Trade Mark, a "White Rose" on a "Golden Lyre."

ESTABLISHED 1799.

ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from 'the necessity of things,' whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWCIK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d.; boxes, 6d. and 1s. each. (a)
